

# **LABORATORY INFORMATION EXCHANGE IN HEALTH INFORMATION TECHNOLOGY**

- **What challenges will laboratories face in achieving interoperability as described in the current ONC Laboratory Interoperability Action Plan?**
- **What are achievable goals for interoperability that can be readily evaluated going forward?**
- **Which stakeholders need to be engaged in vetting a draft laboratory interoperability plan?**
- **What mechanisms should we use to effectively communicate a final laboratory interoperability plan to clinical and public health laboratories?**
- **How can federal agencies encourage laboratory code standardization and the uptake of changes to enhance laboratory interoperability?**
